A SALUTE TO THE U.S. COAST GUARD

USCG. BARKENTINE BEAR

"OFFICIAL U.S. COAST GUARD PHOTOGRAPH"

The Barkentine *Bear* served in the Coast Guard from 1885 to 1929. She was the first vessel the service used as an ice-breaker. Her first assignment sent her to the Pribilof Islands off Bristol Bay, Alaska on April 21, 1886, with the Cutters *Corwin* and *Rush* to search for the crew of the Bark *Amethyst*.

The *Bear* was built in Greenock, Scotland, in 1874 and served for 10 years as a whaler before being purchased by the U.S. Navy in 1884 to participate in the Greeley Relief Expedition. She was 200 feet in length and 32 feet wide with a draft of 18 feet 2 inches. The *Bear* displaced 703 tons net and was a barkentine equipped with auxiliary steam power. Under sail she could make 8 knots, under steam she could do better than 9 knots. Two years after the Greeley expedition the *Bear* was sailed around the horn and turned over to the Revenue Marine in San Francisco for outfitting and assignment to the arctic patrol. Her new Captain was not certain that the *Bear* was suited for the arctic patrol because of her deep draft. But the intrepid vessel soon proved herself ideally suited to the harsh conditions of the Far North. Her massive beams and heavy oak frames matched with her reinforced bow and Australian iron-bark sheathing made her a hardy "sour-dough." In her career she made 42 arctic trips averaging 16,000 miles per trip and became such a familiar sight that she was nicknamed "Healy's Puk Oomiack" (Healy's fire canoe) in honor of her first captain in the arctic patrol.

In 1926 the *Bear* was condemned and decommissioned and eventually sold to the city of Oakland where she served for several years as a floating maritime museum. But the gracious lady of the north was not to end her career of service here. In 1933, despite her condemnation, she was selected by Admiral Byrd for use during his antarctic exploration. In 1941 the *Bear* was returned to active duty patrolling the northernmost reaches of the Atlantic. It was a proud day indeed when she sailed into Boston Harbor with the Norwegian freighter *Busko*. The *Busko* had been seized while setting up secret Nazi radio transmitting stations.

In 1944 the *Bear* was decommissioned and placed up for sale. Several years later, while being towed from Nova Scotia to Philadelphia, she encountered a violent storm and sank, her long days of service were finally at an end.

During her days in the arctic patrol the *Bear* engaged in one of the most famous rescue operations ever undertaken. In the autumn of 1887 the *Bear* returned to Seattle from arctic patrol. The waterfront was buzzing with talk of a major disaster in the making. Eight ships of the whaling fleet, with nearly 300 men aboard, were trapped in the ice near Point Barrow and would be forced to winter over. Unless relief was able to reach them they would starve before the ice broke up and freed them.

President McKinley ordered the *Bear* to make ready, secure a volunteer crew, return north, and provide aid to the stranded whalers. The entire crew of the *Bear* volunteered. Within 3 weeks the *Bear* was refitted and underway. The *Bear* sailed north until she encountered solid ice in Nelson Sound. The expedition turned south and landed a party at Cape Vancouver.

The party consisting of 1st Lieutenant D. H. Jarvis, 2nd Lieutenant E. P. Bertholf, and Surgeon S. J. Call set out on a trek which would take them 1,600 miles across the frozen continent. Their plan was to gather a herd of reindeer along the way from native herdsmen and then drive the herd to Point Barrow. The party proceeded by deer sled, dog sled, and foot through the worst possible conditions. The temperature hung near -20° F and often fell to -70°. Lt. Jarvis' diary gives an idea of the ordeal: "The blizzard was still on when we started this morning and grew worse as we went along. As though to make amends for his performance yesterday, my deer kept up alongside Mikkel's (a herder) sled

STATIC ROOM LOG OF THE WIRELESS PIONEERS

Edited by Fred Rosebury

MORE ON LIGHTSHIPS AND MAGNETIC DETECTORS

Dear OM: Here are some notes that might be of interest to the membership concerning material in the JARBOE Edition of SPARKS JOURNAL (V.2, #2.) The items on pp.6 and 7 are of special interest to me. I was assigned to CROSS RIP Lightship No.2 (ten days after getting married). CROSS RIP Lightship No.1 broke loose from her moorings and was lost at sea in a storm shortly before I joined No.2; all hands were lost. CROSS RIP No.2 was better than the NANTUCKET Lightship shown in the remarkable photo on p.7 by D.L.Brown. In those days, after World War 1, the Navy assigned operators. The CROSS RIP No.2 had a quarter kw spark set and a crystal-detector receiver. The motor-generator of the transmitter, which had no magnetic brake, was mounted on the table right next to the receiver so that I could hear nothing until the m/g stopped because it produced a lot of vibration. I think that radio equipment must have been salvaged from one of those sunken USSB ships.

It was a rough assignment for other reasons. There was much seasickness; we had to stay in one foul-smelling, single compartment room that had bunks on the outer edges, and the chow table was in the center. After two months we finally got shore duty (leave). Even some of the old salts in the service got seasick on these lightships.

The "Story of Detectors" on p.15 by H.J.Scott is also very interesting. I was on a ship with an English Marconi magnetic detector (one of the Chilean SS Company vessels). The sensitivity was so poor that I could hear a signal from another ship, night or day, only when the ship was passing within sight. The transmitters on those ships were just about as bad.

Callao, Peru (OAA) had a spark transmitter but only one operator, a very good man. Their power was too low to be of much consequence. Valparaiso, Chile (CCV), was then the only station that had a tube receiver but apparently the chief operator was the only one who used it. Unfortunately I don't remember his name.

That picture of 64 Broad Street, New York, on p. 17 took me back to the time when I first reported in, got a Continental code test, and was told to 'go and see the town' which I did every morning until I was assigned to the SS IQUITOS, OBY. 73s to all.

—Manuel (Mike) Goulart
16-SGP
WPAH

NOTES ON JARBOE ISSUE

Dear OM: I enjoyed reading the JARBOE issue of SPARKS JOURNAL (V.2,#2). I knew Wilson Turner Jarboe (Bill) during the Clipper days. I believe the last time I saw him was in Baltimore when PAA was flying out of there to Bermuda. (I also knew his sister Mildred who married a Coast Guard officer.) When the Clippers were out in the Guam area, I had occasion to work one or two of them from Richmond, Virginia, on 2922 kcs. This was made possible by early morning skip. I assumed that PAA stations eventually picked up their signals. It grieves me to hear of the passing of W. T. Jarboe.

As for the transatlantic run of the PAA, I can mention that an old friend, Paul Oscanyan, was a first arrival at Reykjavik where he set up a radio and weather reporting station in preparation for the PAA flights. Paul was no stranger to those parts since he had done a similar job on the Greenland icecap for the University of Michigan. During that time he QSO'd the radio officer of the Danish ship DISCO. After many QSOs he proposed to her on the air and was accepted. The last time I heard about Paul, he was in the Air Force Academy in the Colorado area. He had two sons, one of whom had been employed with the U.S.Army Map Service as an interpreter. Since that time I have lost contact with Paul. If any of the members of SOWP know of his whereabouts or have any information about him, I would appreciate direct contact. Paul was an old brasspounder from way back and a fine man.

ANNUAL SOWP CW QSO PARTY

SOWP 4th ANNUAL CW QSO PARTY

SOWP 4th Annual CW QSO Party, sponsored by the Society of Wireless Pioneers, Inc. (SOWP). From 0000 Z on June 6 through 2359 Z on June 7th. There are no formal requirements except an exchange of name, membership number and QTH. Suggested frequencies are 55 khz (+/- 5 khz) up from the low end of each amateur band. Novices will operate in the center of each novice band. Members who can only participate part-time are requested to make their calls on the even hours during the period. To optimize long distance contacts, it is suggested that ten and fifteen meters be used from 1400 to 2100 hours Z. The

call will be CQ SOWP. A special certificate will be available to all members who contact a minimum of ten other members during the period. Requests for certificate must include a list of stations contacted, dates, times and membership numbers.

In addition, an SASE Must be included. Certificates will be issued by V.P. for Awards, Manuel "Pete" Fernandez W4SN 129 Hialeah Road, Greenville, SC 29607. Requests must be submitted not later than 30 June 1979.

NOTE: Please call attention to all of your SOWP friends who might overlook or not receive the word.

W. C. Willmot, V.P. - P.R. Soc. of Wireless Pioneers

A.W. 'Bill' Filtness Reviews Society Growth in Canada

SOCIETY of WIRELESS PIONEERS, Chapter VI, "MARCHESE MARCONI", Director BILL FILTNESS February is our chapter's 9th birthday. February 27th 1970 Jim Kitchin, the SOWP Canadian Representative at that time with myself set up a luncheon meeting of 27 ex W/T operators at the Admiral Hotel in Burnaby B.C. bordering the city of Vancouver, a few of us were members of SOWP but Jim succeeded in signing up enough new members to apply for a chapter charter in the SOWP. At a later date we were asked to pick a name for our chapter and the members were unanimous in their choice of Marchese Guglielmo Marconi. Marchese is Italian for Marquis and Guglielmo is William, or Bill for short, so we have settled for "Marchese Marconi". We have a good number of members now, just how many I don't recall, but we are losing some as Silent Keys as time gets along, a normal procedure of course, but we don't like to lose them. We usually have 9 meetings a year for our chapter members and 2 executive meetings at least during the year. We usually have some form of entertainment at least once a year and a trip out of town when it can be arranged with enough members interested.

Our original Chapter VI included all of Western Canada, but about half of our members lived on Vancouver Island and it was decided that they would be better served with a chapter of their own as it involved about three hours travelling time each way so December 10th 1970 a separate chapter was formed and a charter for chapter XVI was formed, and eventually called it Chapter XVI "Gonzales", and chap VI had to recruit more members to replace them, a thumb nail sketch of Chapter VI. Bill F. 370 SGP.

Rosebury—continued

I am still sticking with cattle but my herd has been greatly reduced because of the chaotic state of the business as a whole. However, it is an absorbing job which keeps me on my toes. At age 74 I have trouble keeping up with my Irish setter when we are afield.

It was great to see Les Twanston's inimitable cartoons. Les and I were shipmates at NPH where I served as executive officer, among other things.

—Captain Lee Machen (WA4BQB-inactive) (2376-P) Rte. 2, Box 285 Live Oak FL 32060

LETTER TO THE EDITOR

5 Feb. 1979.

Dear Friends: Congratulations on the issue of SPARKS JOURNAL, V2, #2. Your publishing has always been excellent and just keeps getting better as to content.

On behalf of those of us who lived in the great seaport of Seattle, many thanks to that ex-Seattleite, Jane Jarboe, for her admirable biography and account of her husband, W.T. Jarboe. I can't help but wonder how she met W.T. in Seattle. Could they have met in one of the famous dance places: the Trianon, the Roseland, or Dick Parker's Pavilion, where the big bands were playing in those days?

Through the medium of the SOWP Directory I have been placed in communication once again with friends I had lost track of in the early twenties. For example I was able to repay Oscar Anderson (O.R. Anderson, 47-SGP) the money I borrowed from him when he was operator on the SS Cuba in May 1924. I hadn't seen Herb Scott's friend, Ken Durkee (K.M. Durkee, 596-SGP) since about 1927 or 1928; now we are corresponding once more. I found Robert Gleason (R.J. Gleason, 642-P) in the Directory,--and so forth, and so forth. It is great!

In the spring of 1924 I was operator on the Norwegian ship Hallgrim (AVE) enroute from Seattle to Japan. I called VAE where Ken Durkee was operator. (We met later at the University of Washington, Seattle.) On that trip we were kept advised by radio of the round-the-world flight of the military airplanes which departed from Sand Point near Seattle which was later the site of the Naval Air Station. Perhaps there is an interesting story in that 1924 flight. If there is still someone around who was connected with it, please speak up. One of the pilots, Lt. Nelson, was later representative for Boeing in Washington, D.C. for many years. When I am next in Seattle I shall check with Boeing.

Cordially, H.D. Finch, 1976-SGP 1830 Indiana St., NE, Albuquerque NM 87110

DIAMOND SHOALS LIGHTSHIP

See SPARKS JOURNAL Vol. 2, #2.

Off Cape Hatteras there is a hardy vessel, anchored but tossing over a treacherous bit of bank known as Diamond Shoals. The vessel is a lightship, carrying prominent globes of light on its two masts to warn mariners of the shallow waters. By daylight the name DIAMOND SHOALS can plainly be seen in large letters painted on her hull, much like a notice of pestilence nailed upon a melancholy door. One wonders if she has any other name: something simple and sweet like "Mary-Belle?"

This ship is built to withstand some of the mightiest buffets of nature; she does not have the trim, sleek lines of a speedy yacht for she is not going anywhere: her duty is to stay steady in one place. She is short, stubby, round and bulging of hull and snug on deck. Her short, stout masts are strongly guyed.

For the men who compose her crew she cannot be a comfortable berth. Their jobs are not to be envied by any man. In foul weather they pray fervently that the straining anchor chain will hold--and that they can keep their food down.

F.R.

COMMENTS ON CHINA CLIPPER STORY

(See SPARKS JOURNAL V.1 #4 p.31)

In a letter from Arthur Nolan dated 10 Feb. 1979, he states that he, with Wilson T. Jarboe (678-SGP-deceased), and J.D. Poindexter (deceased) made many survey flights to the South Pacific.

Art says he was not a flight operator except for one trip from Guam to Alameda. He was stationed on Palmyra Island with the CAA during the Japanese War, returning to Hawaii on a tuna boat.

Art also says that he met the PanAm operator who unexpectedly made a round-the-world trip from the West Coast. Thinking he was only going from San Francisco to Los Angeles, the Martin flying boat went on to Australia, then over Africa and the Atlantic. He arrived in New York in midwinter wearing only tropical clothing!

Art says further in his letter that the pictures of the little radio station on p.31 (the one that looks like a not-very-glorified "Chic Sale"-without the crescent moon) look very familiar. The shack was built on the North Haven Island and then lightered ashore and slid on runners to the site where it was erected. He and his companions had to clear that site with machetes.

Threatened with a shortage of drinking water because the wells were salt, a still was set up and tended by Art.

--Arthur Nolan (372-P/WB6CFT)

(Note: I met art Nolan circa 1930 in Big Spring, Texas, when I commissioned the Airway Station for CAA there. Art was assigned by American Airlines to their new station. I thought Art had flown PanAm but I guess not.

WARTIME OPERATIONS IN THE INDIAN AND PACIFIC OCEANS

SOS of February, 1944

During the month of January, 1944, the SS Benjamin D. Wilson had discharged cargo in Calcutta for the support of our forces on the China-India-Burma front. After a stop for refueling and supplies at Colombo, Ceylon (now Sri Lanka) the ship set out alone bound for Mozambique. At the pre-sailing conference with the Naval authorities, the ship's officers were warned to maintain a vigilant watch for enemy submarines which were known to be operating in the region south of India. They said that immediate response from antisubmarine forces in Ceylon was available on receipt of an appropriate sighting report. We were told not to hesitate in reporting any sightings, since friendly submarines were not in the area.

One night, several days after leaving Colombo, our mid-watch officer sighted the wake of a periscope. I sent the SOS message immediately after it was composed by the Captain and received acknowledgement from the shore station in Ceylon. None of the ship's crew knew what action the Naval forces took but we were not attacked. The remainder of our passage was full of anticipation but it was completed successfully.

OKINAWA, April, 1945

From the middle to the end of April, 1945, I was aboard the SS Robert M. LaFollette, with the invasion forces at the beach-head in Okinawa. We had very good exercise shoveling the shrapnel thrown by our Navy's guns (at all those Kamikaze aircraft) off the ship's decks. I monitored several SOS messages from merchant ships hit by the Kamikazes but fortunately did not have to send one.

--Francis E. Erdle, 3068-V

DATA ON INTERCITY RADIO WANTED

Roy E. Closs (801-SGP) of Frankfort MI (W8CS0) would like to see something published about INTERCITY RADIO COMPANY of the c.1925 era. If anybody has information on this subject please contact Fred Rosebury (1570-SGP) at 133 Bacon Street, Natick MA 01760.

CLARENCE C. GIELOW, WHERE ARE YOU?

You are listed in the Year Book-Directory of 1976 as 2256-SGP at 4018 Higley Road, Rocky River OH 44116. A letter sent there has been returned, addressee unknown. Please contact Fred Rosebury (1570-SGP), 133 Bacon Street, Natick MA 01760.

THE SOCIETY OF WIRELESS PIONEERS INC.

"G.B." NEWSLETTER NO.8 - JANUARY '79

Society Membership Worldwide now 3003! 1000 mark reached Feb '72; 2000 in May '75; and 3000 in November '78; great progress indeed! And we in UK have three new members of our own - 2824 Don Walmsley G3FZL, RNARS 012, very much responsible for establishing station on HMS Belfast as London RNARS HQ; welcome to the ranks, Don. Also - 2835 Dave Duglas from Arrochar in Strathclyde - welcome also Dave! New Technical Associate Member No TA85 Larry W Rice, of Sutton Coldfield, very much a telecomm man, involved at Rugby, GPO, Cable and Wireless and Birmingham Telegraph Office; also member BARTG. (British Amateur Radio Teleprinter Group). Welcome. Sadly report, following mention in last newsletter, that Jack Ryall, member no 1966 became silent key; Jack latterly lived at Prestwick, previously Troon and Halifax NS. He joined the Society in May 1975, and first saw service aboard HMS Dragon/GVLG. R.I.P. UK Member T. Colman G3TTH 1623, recruited new member no 2981 Rod Pettitt of Conway, NO., who completed 35 operational missions as RO/Gunner over Central Europe; ditched in Channel in B 17 bomber March 1944. Mail returned to Santa Rosa as undeliverable to Member No 844 G3VCH Roy Philpott of Chelmsford, Essex. Any news? Quote from W5QNT/5 - "This retirement is great - one wakes up in the morning with nothing to do and at nightfall one is only half way through! Latest Net as at September '78:-

TRANSCONTINENTAL	Thursday	1600 gmt	14125 & 14097	W5QXU and W6IC/K4NP
TRANSATLANTIC	Sunday	1100 gmt	3550	PA8GL

Changed format of Society QSL cards allows for larger sized type for call signs and incorporates other improvements. Display of Pioneer Radio Equipment destroyed in fire at Aerospace Museum of San Diego night of Feb 22; arson suspected. Society high speed morse code test 19 March qualified W7ME at 60 wpm and W60Wp K7EF K7BN at 50 wpm. Our own RNARS QRQ run only goes up to 40 wpm! Practice at super speeds offered by K6DYK from Monterey in California Sundays 1930 local 3690 and 7025 Khz. Funeral of Lela Livingstone Morse (aged about 96) in January marked the end of the direct Morse line. Disarming greeting to colleague at work:- "Have you come to help find a solution, or are you part of the problem?" FCC agreed to closure of Tuckerton/WSC; New York/WSF and Hialeah/WAX. Also probables for closure are WOE and WPA. Methinks 500 khz must sound very thin now on the US East Coast - remember how these stations used to pound into one's ears up and down the Eastern Seaboard? Saddest closure, personally, some time back was WAG at Rockland Maine, who used to take all my SIF's to my then soul-mate in Portland Maine. The Liberty Ship idea had a lot to answer for, Mr Kaiser! Voice of America Dipole Curtain Antenna in California capable of handling 500 Kwatts of RF! Chairman of National Coal Board reported as saying that the 'outlook for coal not so black' Arthur Batcheller, former Engineer in Chief of NY FCC died in March; Pioneer in Safety of Life at sea through radio, investigated historic sea disaster of 'Morro Castle' (Very well worthwhile reading 'The Strange Fate of the Morro Castle' by Gordon Thomas and Max Morgan-Watts, published by Collins 1973 in UK). The probability of the failure of a test is directly proportional to the number and importance of those watching it! Casualty History continued:-

- APR 21 1940 CEDARBANK Off Norway Torpedoed by Submarine.
- MAY 10 1942 NANKIN Indian Ocean taken prize by raider.
- JUN 23 1943 VOITURNO Off Cape St Vincent bombed and sunk by aircraft
- JUL 30 1944 SAMWAKE Dover Straits torpedoed by E-Boat.
- AUG 8 1940 OUSE Off Newhaven collision avoiding torpedo from E-Boat.

Tuesday 1st August marked very pleasant personal visit to Lands End Radio Station GLD at St Just in Cornwall; great satisfaction in seeing the other end of the key that one used to listen for so diligently across half the Atlantic! Pity that, being on summer holiday, active gale warning then current for local waters! Later same week stood at the base of the Poldhu Marconi Memorial, calling CQ repeatedly on hand-held vhf portable on 145 mhz. Disconsolately concluded that new crystal for updated calling frequency required. Several contacts later from other high spots in Cornwall. Enquiry for details of the Society received from P U Brown G4CYV of Bicester Oxford; also from P O Buchanan, presently with United Nations in Jerusalem. Letter from member Cliff Emery G3LFP No 1133, with news of impending retirement and hopefully, more time for getting on the air, now that conditions are so good; thanks for the stamps Cliff - all help! Member Robin Hill, G4DWJ, No 1959, advises now /EM aboard 'City of Winchester', listening 14011 or 21011 on Sundays/Wednesdays at 1230 to 1330 gmt. 1979 dues remain at 7.50 dollars and the current exchange quoted in the newspaper is 2.0175; this means £1.22 = the sterling equivalent; all welcome to send this direct to me, if preferred to direct; if rounding, please upwards, to help with postage etc! Member Jack Sykes was due to make trip to Houston and Santa Rosa last September; waiting to hear news of his visit, which should have proved very interesting for him, as he lived in Houston some time ago.

All very best to all for 1979.

Cheers and Good Wishes,

G4BVA

GOLDEN GATE

June 20 1979 - Milbrae, Calif.

El Rancho Restaurant, 1100 El Camino Real. 11:30A - 3:30P. All Invited. Contact: Fred L. Mangelsdorf, 44 Temelec Circle Sonoma. 95476.

BUSINESS MEETING

June 21 1979 - Milbrae, Calif.

El Rancho Inn, 1100 El Camino Real (same complex as for Golden Gate Reunion on following day. See details on Page 31 of this issue.

Society of Wireless Pioneers
 Gonzales Chapter XVI, Victoria B.C. & Vancouver Island B.C. The formation of our Chapter authorised by H.Q. Santa Rosa on February 22 1971. The Vcr Island group of members had operated as Chapter XVI since December 6 1970 on recommendation of Executive of Chapter VI, "Western Canada" in Vancouver B.C. on the Canada mainland. Present membership of Gonzales Chapter XVI - 32 members plus one Honorary, 370-P Mr A. W. Filtness (Bill) Director of Marchese Marconi Chapter VI S.O.W.P. Vcr. & National Director for Canada. Eighteen members of Gonzales live in the Victoria area, the remaining fourteen located at scattered points Up-Island. Gonzales Chapter XVI Director is 1858-SGP Leonard A. Polack VE7ZH (Len), started his brasspounding on the Great Lakes, finally deciding to call it a day and go ashore to raise his family and a new career in the Printers Trade at Toronto Ontario. He retired some years ago to Victoria and happily located at Colwood on the outskirts of Victoria. Active in amateur radio and the Senior Citizens groups of the districts. Xyl keeps him on his toes! The Secy-treasurer job held by yours truly, 1083-V David A. Smith VE7DBA, retired to Victoria in 1964 after 45 years with Overseas Communications originating in Britain during W.W.I. Keep fit doing honorary jobs locally, Church Veterans' Associations and radio 'hamming' in the spare moments. All our members are brass-pounders, Ship and shore men who have gone down to sea in ships! We remember with affection three silent keys, 603-PA Percy Pike, June 15 1971, 268-P Jack P Brooman, on December 30 1975, and 595SGP Stewart H Fulton on March 22 1978. Contacts are made over the weekly C.W. and S.S.B. H.F. Nets also on 2 metre SX and Repeater channels V.H.F. exchanging pleasantries and points of interest for the Chapter. Social contacts are made at the periodic luncheon meetings. A degree of difficulty in this regard is the scattered locations of the Up-Island members. To overcome this luncheon meetings have been held at the Village Green Inn, Duncan B.C. about 56 kilometers north of Victoria. In the years 1974 and 1976 visits were made to the Teleglobe Satellite Earth Station at Lake Cowichan about 14 kilometers in from Duncan, where the Staff gave us a guided tour of the In-station system and also the tracking arrangements for the Dish Antennas. They cover the Pacific area and also transmit to the Eskimos in the Far North of our Lomion. The luncheon-meetings prove satisfactory eye to eye swapping tales of bygone days! In Victoria the rendez-vous is at the Captain's Palace restaurant near the Inner Harbor, providing the Salty setting to keep things on an even keel. Some of our members dwell on the Historical aspect, drooling on the publications from H.Q! At our last meeting on Dec. 9 1978 the attenders included the recently joined members. We were favorably impressed with th calibre - the latest being 3004-P Ed. Cox of Brentwood Bay, retired after a distinguished career as Mariner and Captain on the high seas now gardening and active on the amateur wireless bands. 1978 was the Captain Cook bi-centennial celebrating the stepping ashore two hundred years ago on the uncharted wilderness of what is now called British Columbia. Capt. Gonzales Lopez de Haro, Spanish explorer landed with his ship at Nootka on the n.w. coast of Vcr. Island in 1789. The native Indians of the Nootka Tribe were not impressed by all this and turned thumbs down on a Rerun of the landings at the Nootka Inlet by the Tall Ships with sail which came to Victoria and Vancouver with that purpose in mind! 73 from Gonzales Chapter XVI, Vancouver Island.

FOOTNOTE

This is a pilot run of a new method in presenting Chapter News. Material on pages 4 & 5 is printed from Chapter 'copy' without rewrite. We think our Chapter Directors and officers have done a fine job. We hope for more participation in future issues by all chapters. Bill Breniman

JOIN-START-SUPPORT

A SOWP CHAPTER!

Attending reunions and meetings that Chapters schedule is the fulfillment of happy expectations and a crowning reward of pleasure and satisfaction that will bring delightful memories for years to come. Why not offer to volunteer for an office in a Chapter or perhaps if you are in an area where no chapter exists, you would enjoy the challenge of organizing a New Chapter. We will be only too glad to assist. Write Chapter Chairman, William C. Willmot, 1630 Venus St. Merritt Island Fla. 32952. Ham call is K4TF or twisted pair - 305/452-2090. He will be only too happy to assist. "Doing for others" is not only a good way to become acquainted in a short period of time but it is a rewarding experience to feel the warm appreciation of new and old friends who feel you are doing them a real service.

ELMO N. PICKERILL CHAP. XI MILT SCHWARTZ, DIR.

Director Milt. Schwartz W2SF 166-36 24th Road, Flushing, N.Y. 11357	Secretary/Treasurer Grant Nonnamaker K2QXQ 211 Ward Ave, Audubon, N.J. 08106	Historian Bud Fischer WA2QGV 14 Mohawk Trail, Westfield, N.J. 07090

Program Chairman
Earl W. Korf K2IO
P.O. Box 153, Lincroft NJ 07738

History of chapter: In the fall of 72 business meeting on west coast, a New York, New Jersey area chapter was proposed. Charlie Maass from Short Hills NJ attended this meeting and volunteered to act as temporary director, and to get the chapter organized. The winter of 72/73, a great amount of ground work was done by Charlie, Ed Raser and Don Masten. In March 1973, 200 letters were mailed out by Charlie & Don to SOWP members in the NY, Jersey, Eastern Pa and Connecticut areas, asking for suggestions as to our first meeting place and date and asking for nominations for officers. Am not sure who was the first to suggest the name for the chapter but think it was either Ed Raser or Charlie Maass. Anyway the name Pickerill proved to be an appropriate name as much of Pick's career was spent in this area. Pickerill was a well known pioneer in radio (wireless) communications on ground, air and sea. Started wireless career in 1904, where he was working Morse for the railroads in St. Louis. He met Dr. Lee DeForest in St. Louis at the World's Fair in 1904. Worked with DeForest for a while, then United Wireless and most of remainder of career with Marconi, RCA companies. Elmo was recipient of the first, Extra First Commercial ticket (Pink) issued in 1910. He spent 7 years as Chief Opr of the liner Leviathan. Charlie Maass sailed with Pick from 27 thru 28. A few of our chapter members knew or had worked and sailed with Pick, such as Ed Raser, Dick Egolf, Jeff Azoy, Bruce Kelley, etc.

The first chapter meeting/luncheon and election of officers was held in Trenton NJ Apr 1973. Charlie Maass was elected Director; Don Masten, Secy/Treasr; Ray Connel, Program Chairman and Leroy Glodell as Historian. Ed Raser had previously been appointed as North East Area Director of Liaison and Coordination. Also, Jack Schantz was elected Chief Operator, of the Chapter's Amateur Radio Nets.

Upon Charlie Maass's sudden death on Dec 18, 1975, Don Masten took over Charlie's job as director until we could find a replacement. At next meeting, Bud Fischer took over the Directorship and in Sept 77, our present officers were installed.

We schedule two meetings a year, in April and September. Center of our membership is north central New Jersey so our meetings have been held in the past at various places in New Jersey. Publish 5 to 6 newsletters per year, next one latter Feb or first of March. Next meeting scheduled for latter part of April 79. Chapter dues \$2 per yr.

Licenses:

We are proud that our chapter has over 30 members out of 135 who possess current commercial tickets. Top men, according to info I now have, are the following: Dick Egolf, W2WX age 83, first ticketed with OOB in 1911 and been continuously ticketed since. Present ticket expires 1980. Jeff Azoy W2XZ, age 81 since 1914 and Ed Raser all tickets since 1917 Then Ted Welsman VE3WV 1916; John Holland VE3BOJ, 1915; Joe Maloney W2BE 1917 (Pink Ticket).

Mike Lanson W1GU and Jack Schantz W3PYD 1919. Art Goodnow W1DM and Earl Korf K2IO are late comers with tickets from 1924. Ed, Art and Earl also possess current Coast Guard Radio Officer's tickets with Radar, and/or aircraft endorsements. There must be many more I have not received info on.

We are now on the mailing list for ARA and ROU and they are sending us their newsletters and will have some items in the next newsletter.

Newest members of our chapter:

John Donoghue N1KTS- Hampstead NH
Al Emrich W2LPJ Whiting NJ
Tom Kilpatrick Boothwyn Pa K3AOP
Geo Keller W2EM Woodbridge NJ
Gordon Kressel W2BQ Collingswood NJ
Sy Levine WB2HCC Oakdale LI NY
Ed McCarthy W1YT Lemster NH
Charlie Oliva Ft Lauderdale Fla
Jim Pezzulo WA1OPH Windsor Ct
Walt Scheffe W2LPA Massapequa Park NY
Director Ed Raser returned week and is recuperating from a 3 weeks hospitalization. Hope you get your strength back soon as we miss you on the nets, Ed.

Joe Pettingill N2BC was also in hospital for some time but is now at home, altho radiation treatments are still necessary. Keep up your spirits Joe and keep checking with us on the ham nets.

Al Rowe W59-V: This real old timer has been in nursing home for several years, suffering from stroke, leaving all of one side paralyzed. Art is unable to speak but does get around the home in a wheel chair. Receives the SOWP publications which are read to him and believe would enjoy hearing from the boys. Is eating well and not getting any worse. When you write, write in large letters. He will not be able to answer tho. This info received last nite by telephone from Mrs Ruth Thiele, Al's niece. B. Bernstein has been a good samaritan to Al for many years and does visit him. Last visit, Bernie took over a key and buzzer set in hopes of making communication with Al but Mrs Thiele didnt think he was able to manipulate it with his good left hand. Address is: Merry Heart Nursing Home, Hillside and RT 10, Succasunna NJ 07806

Art Jacoby W3OY: Letter from Art's daughter, Mrs Markley in Illinois reports the death of Art's wife last August. Art is in the Maple Farm Nursing Home, Akron Pa 17501. Her Dad is not in good shape altho he can talk and reads occasionally. He gets confused about the past. Is bed-ridden most of the time and not walking since fracturing his hip last August. Says he may enjoy the newsletters sent to above add. Note: Jack Schantz has visited Art and last visit, was disappointing as Art didnt remember him nor other SOWP friends. Jack intends to make another visit with Art very soon.

The ROA receiving station at Rocky Pt, Long Island finally QRT end of 78. Station started in 1921. SOWP member Bob McGraw W2LYH I understand has transferred to ITT and WSL. Good luck Bob in new job.

CW Net # 1: Mon 0900, Tues & Thurs 1900EST on 3670 KHz. Was started in 1973 by Ed Raser, Howard Cookson, Charlie Maass and Jack Schantz. Short time later was taken over by Jack W3PYD, our chapter CHOP and Jack has been NCS ever since with Ed W2ZI as alternate. For the last year, average check-ins on the morning net has been 8 to 10. On the Tues and Thurs evening nets, the attendance has been very disappointing with only 2 or 3 stations checking in. Jack works awfully hard to increase the attendance but results are very poor and we are discussing the decision to discontinue these evening nets. Would appreciate suggestions and recommendations from the membership. Bulletins from the Skipper's Logs are broadcast on the Monday am net.

CW Net # 2: The Yankee Net on Saturdays at 1000 on 7040 KHz was started by Howard Cookson in 73. Upon Howard's death in 74, Bus Gahm W1DIU took over as NCS with Earl Korf K2IO as alternate. Upon Bus's death in June 78, Earl took over the net with Schantz as alternate. This is the most productive CW net, probably because of the greater coverage on this band. Average check-ins around 20. Biggest difficulty on this net is the constant battling of week-end QRM. We are blessed with 4 to 6 Canadian members on this net.

On both nets, we get a couple of Capital Area chapter members, such as Em Mehrling W4NH and George Favre W3PEV. Also John W3NVD and John W4HU We welcome check-ins from our neighboring chapters and a few of our boys attend their nets.

Note: Some of our members who are not up to their code speed, listen in and hear the boys talking, a little too fast for them to copy and are reluctant to break in. This condition I abhor and I plead to you QRS boys to break in and am sure we will all do our best to slow down to your speeds. I admire so many of you, who have been real fast ops in the past who thru creeping years, glass arms and arthritis cant quite handle the key like you used to. Theres many of us in same boat, so come right in and dont be bashful.

Phone Net # 1: Sundays at 1415 on 3917 KHz has become a very popular SSB net. Original phone net was started by Don Masten W2LEL in 74. Milt Schwartz W2SF took over this net in 76 and still is NCS with Earl as alternate. Average check-ins around 20. The freq is easy to locate as our net follows immediately the QOWA N. New Jersey net on same freq.

Phone Net # 2: Thursdays at 0900 on 3917 with Harry Watson W2OV, doing the NO duties with Earl as alternate. This net was started in 77 by Don W2LEL and Ed Raser W2ZI and Harry took over in Nov 77. Average check-ins on this net rather small, around 5 to 7 but hopefully it will improve when the boys learn about the change of time from 0930 to 0900. Harry does a remarkable job as NCS considering his very limited eye sight. As stations call to check in, he cannot see to write down the calls so has to rely on memory, and what a memory he has. You do a wonderful job, Harry.

CAPITAL AREA CHAPTER X ALLEN BARNABEI, DIR.

For calendar year 1978, Capital Area Chapter X held four meetings, all at the Black Angus Restaurant, in Falls Church, Virginia. Our first meeting took place on 25 February with an attendance of 61. Capt. Art Enderlin USN (Ret) was our featured speaker. His presentation titled "The Saga of Art Enderlin" was Part 2 of Art's colorful and outstanding career. (Part 1 was delivered at our 19 Nov 1977 meeting.)

Our 2nd meeting was held on 6 May 1978. In addition to celebrating the 10th Anniversary of the SOWP, we dedicated the meeting to our loyal and hard working Founder-President, Mr. William A. Breniman. 59 members and guests were in attendance. Lt Col Peter Hurd, USAF, a member of our Chapter delivered a very thought provoking presentation on the heritage of the wireless pioneer over the past 77 years, his role in the SOWP past, present and future. On behalf of National President Breniman, Al Barnabei presented the "SOWP Wireless Achievement Award" to Colonel William E. Plummer, retired Director of the Office of Telecommunications Policy, Executive Office of the President. The award recounted Col. Plummer's long and outstanding communications and electronics career - a total of 41 years. Bill is an active paid up member of our Chapter.

Our 3rd meeting was held on 19 August 1978. 72 members and guests joined us for this get-together. Appropriate belated congratulations were extended to Em Mehrling, winner of the SOWP 10th Anniversary CW QSO Party held on 4 - 5 May 1978. He worked all Districts and Canada. Our guest speaker for this meeting was an outstanding Navy Doctor, RADM George H. Reifenstein, USNR (Ret.). He gave us a very fine report, with visual aids, outlining a very interesting duty tour to Kabul, Afghanistan, under the auspices of CARE-MEDICAL.

The 4th meeting, and last of 1978, was held on 2 December. In view of the widespread expressed interest in the lecture of our invited guest speaker, a special invitation was extended to members of the Wash D.C. and Northern Virginia Chapters of the QCWA, to be our guests. 86 members and guests were in attendance. Mr. Lewis Strauss, a well known national and international explorer, honored us with an illustrated lecture involving one of his recent expeditions to the Ninigo and Hermit Islands (New Guinea) aboard the SS SEANG (P29HS). His accounts of the amateur radio operations aboard the ship and on the atolls were of particular interest. A Chapter election of officers, to serve for calendar year 1979, resulted in the re-election of the 1978 slate:

Director - Allen Barnabei
Secretary - John Swafford
Treasurer - Emerson R. Mehrling

Additionally, at the request of the Director, the following CHOPS agreed to reappointment to serve thru 1979:

CW Net: Emerson R. Mehrling WLNH (Primary)
John Elred W3NVD (Alternate)
SSB Net: Max Jacobson W3DUG

Our first meeting for 1979 will be held on 24 February 1979 at the Black Angus Restaurant in Falls Church and our present planning is to schedule 3 additional meetings to be held in May, August and December. Exact dates will be made available as they are firmed up.

All members of Capital Area Chapter X would like to take this opportunity to wish SOWP members everywhere, the best of everything in 1979.

OUR DEDICATED CHAPTER OFFICERS

We would like to take this occasion to express our deep appreciation to all Chapter Officers for the wonderful service they are providing the Society and Chapter members. They volunteer their service, time and talent. Please take the opportunity of expressing your thanks to them ... also an offer to assist is always appreciated.

Here are latest QTH's and changes on our Members

Moving Around?

Recording Changes Reported : Addresses, Marital status, Amateur calls, Phone Etc.,Etc.

X..VERY IMPORTANT NOTE..X

It is suggested that you keep this edition of the JOURNAL until you have received the 1979 DIRECTORY-CALL BOOK. This is very important because the following pages may reflect many changes in the coming Directory that you may wish to make.

Regretfully, any Directory/Call Book ever published is ... "OUT OF DATE" almost before it is published. The reason being of course the changes which are continuous with so many individuals.

The data and statistics which will appear in the coming Directory was that of record on JANUARY 1st 1979. About that time we mailed out our annual dues statements. These in turn generated quite a flood of notices that the member receiving had a **NEW ADDRESS**. We have tried to effect changes but once the publication had been set up, these changes involve a great deal of extra work which in turn has slowed down printing of same.

Many of the earlier changes have been made but we are not pleased that there are errors which will be found, especially since we have made so many requests that our members furnish their new address, call letter changes, telephone numbers, names of spouse, etc etc. at the time of move. Updating of such vital statistics is the responsibility of our members.

We give **CHANGES OF ADDRESSES (OR OTHER CHANGES)** our highest priority. However, if we do not receive the required information, we can not update your record and it is as simple as that.

So ... Brother Sparks ... Please do not judge us too harshly if you find errors. **ERRORS WE DO MAKE** but we can not focus and 'instant eye' on one and all so we make another plea ... please send us any change that affects you and the validity of your records in our files. Please think about it.

S/ The Ancient Mariner

S.O.W.P. 'QSL' CARD CONTEST

The Winners are...

You must be out of your 'cotton picking' mind said one of our Southern members who wishes to remain anonymous (Suh!) to judge the winner of our "QSL" card contest! Well... wirelessmen with blithe spirits bouyantly walk in where angels fear to tread --- it is said.

Our Number One Judge on this occasion, Elmer H. Burgman (W6EB) who has been on the air since 1924 acknowledges the "mad to glad" ratio is about 50 to 1. However, with the courage of a pilot who takes off in zero/zero weather, the determination of an early-day operator, fighting a pervasive arc out in the 'horse-latitudes' and with full dedication to assist the Ancient Mariner in a contest that will warp the good nature of all those members who are sure they have the best card, he has consented to head a task-force of one to record for posterity the names of winners of this inspired contest. (Prizes will go to the first ten) ... Others will be listed with "Honorable Mention". Thanks to all who joined our contest. Perhaps if we recover in a few years, we'll try it again.

1. HAROLD W. "HAL" HASBROUCK - 2171-V

The QSL card of Captain Kurt Carlsen, Skipper of the SS Flying Enterprise (W2ZOM/MM) mailed to our member Harold Hasbrouck (W6OHM-"Hal") QTH: Carson City, NV was mailed in 1955 with a 2 cent stamp. While this is not Hal's personal card, we think it holds top interest. Incidentally, the Skipper and his ship was near Hong Kong when the contact was made. Card was posted in SF in Oct. on return state-side.

5. JOHN MARRIN - 3055-M

MISS CARMELLA CICERELLO 738-V

5. RUSSELL W. "RUSS" MERCER 2375-V

6. GILBERT S. "WICK" WICKIZER TA-48

7. MELVIN L. "MEL" GRUMMET 1740-SGP

8. LESLIE L. "LES" FUNSTON 1903-P
BRITISH AMATEUR RADIO STATION

9. JOHN A. EDWARDS 1222-V

10. ROBERT C. (BOB) LINDSAY 889 - V

Ai Bill! Greetings from the CARRIZO DESERT
Ocotillo Ca. 92529
LARRY "LY" HARVEY · P.O. Box 587

HONORABLE MENTION

This is to thank one and all who entered our **FIRST QSL CARD CONTEST** for their participation. The first ten winners are listed in the two left columns of this page. Others sending cards are given "Honorable Mention". Continuation of their cards appear on Pages 11/12. A selection of the Society's cards since 1969 to date are shown on Page 13.

A number of cards were received AFTER judging was completed and copy worked up. Regretfully, they are too late for consideration this time so will be held over for any future contest we may decide to run.

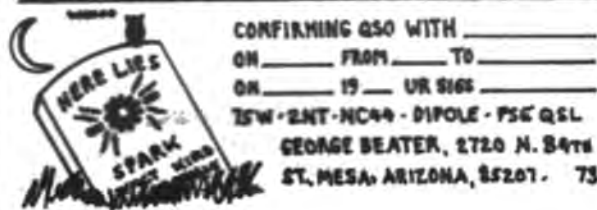

Reproduction of QSL cards in black/white and with a reduction of 65% of original plays havoc with copy. These reproductions do not begin to do justice to the original copy on which judgement was made and will perhaps lead some to wonder how certain cards were selected.

It might be mentioned in passing that our Judge, Elmer Burgman gave primary consideration to the 'originality and idea' rather than artistic finesse and graphic art, although considered. It is hard to judge QSL cards without feeling that perhaps injustices were done - however, we feel a very honest and candid evaluation was made so we thank our Judge for walking on the thin line separating happiness and sorrow. It was ever thus! The ratio in this contest was approximately 1 to 60. Rather poor odds?

All winners will receive a set of four Medallion - Coasters in a gift package as their prize. They will be mailed within a few weeks. To all others, our sincere thanks for your participation.

(Report of Silent Keys" -- SOWP Members we have received to date this list was typed April 20 1979. Kindly note: We would rather receive 25 duplicating reports on any member called by our Eternal Father than to receive none at all. Thank you.)

We shall always remember them

I must go down to the seas again,
To the lonely sea and the sky,
And all I ask is a tall ship
And a star to steer her by.

-- John Masfield

MEN WHO GAVE THEIR BEST

HENRY G. TATTERSAIL, The Marconi Wireless Operator of the Steamer "BALTIC", who remained at his post in his wireless room for FIFTY-TWO hours without sleep, aiding the work of calling continuously for assistance and help in directing the course of the rescue liner "Baltic"
Harry E. Rieseberg collection

WHERE ARE THEY ?

Regretfully, mail addressed to the following members has been returned by the Post Office - unable to deliver or forward to our last address of record. Should you have the current "QTH" of any of those listed, you may be doing them and us a favor by informing them, we do not have a valid address or sending such to us for further contact. It is our desire to keep in contact with all members both active and inactive. You can help us ?

CHAPTER VII NOTE: Suggestion has been proposed by VP William Willmot to reorganize the EDISON CHAPTER with AREA CHAPTERS in Tampa/St. Pete (Edison) area (2) East Central Fla (Canaveral Chapter) and (3) Miami/Ft.Lauderdale Area (Gulf Stream Chapter). We suggest you contact "Bill" Willmot on the above. THE EXISTING SOWP EDISON NET to be renamed the SOWP FLORIDA NET. The above suggestion will give all Florida members better opportunity to get to gether for reunions without long haul travel.

THE BEST... OF FOLKMAN

A DEDICATED MEMBER WHO HAS SPENT HUNDREDS OF HOURS BRINGING PLEASURE TO BROTHER "SPARKS" OVER THE YEARS

Honoring our Wonderful Cartoonist

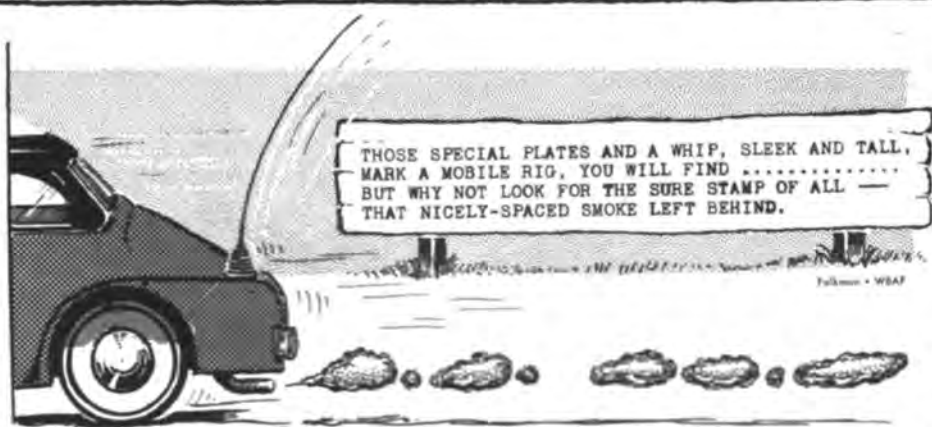

Ralph C. Folkman - WBAF

Award Winner

By Ralph Folkman

"GEE, MOM — LOOK WHAT I FOUND IN GRANDPA'S TRUNK UP IN THE ATTIC."

SICK BAY

"YOU'VE BEEN WITH THIS STEAMSHIP COMPANY A LONG TIME ... I NEVER FORGET A FACE."

"—AND NOW, FROM THE SCENE OF THIS TRAGIC DISASTER, WE RETURN YOU TO THE STUDIO FOR A MESSAGE FROM OUR SPONSOR."

"THAT ? — OH, JUST THE 'SPARKS' I WAS WEARING WHEN I POUNDED OUT THAT DISTRESS CALL FIFTY EIGHT YEARS AGO."

"CHIEF, DID YOU EVER GET CHEWED OUT FOR TESTING — LIKE WHEN THERE'S A DISTRESS ON THE AIR ?"

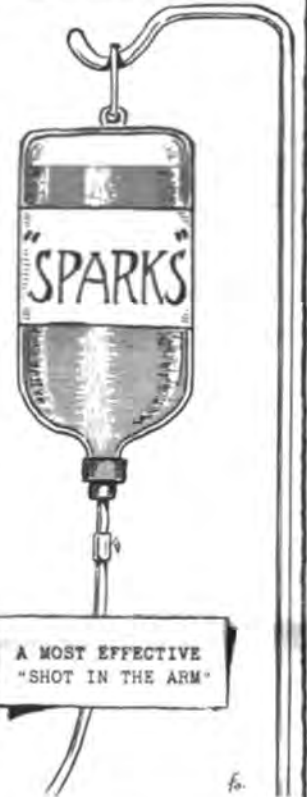

THE ONLY VIEW FROM HIS COMPOUND IS CIRCULAR IN SHAPE — TO HIM THE WORLD IS ALWAYS ROUND, A FACT HE CAN'T ESCAPE.

THE WIRELESS PIONEER

SPARKS JOURNAL

TRANSMITTER CONTROLS OF THE FUTURE WILL PROBABLY BE LABELED IN 'MOD' TALK

WHEN THE SKIPPER SAID "GO FLY A KITE" HE DIDN'T REALIZE HE WAS DEALING WITH A NUT AND A BOLT!

-- BUT YOU CAN'T PLEASE ALL THE CREW ALL THE TIME

Welcome Aboard!

NEW SOWP MEMBERS - WE WELCOME YOU

The Staff and members of our organization take great pleasure in welcoming the following members into the Society and look forward to meeting you at Chapter reunions or in the pages of our publications. A fine camaraderie and close fellowship binds members in a brotherhood of cordial geneality and companionship enjoyed by few organizations. While the preservation of history of the wireless mode of communications is our very dedicated purpose, it also permits us to fraternize and enjoy contacts with friends and shipmates of days gone by. May your cruise with us be a happy one.

Every Member Get A Member

RECRUITMENT AWARDS

"Recruitment Awards are presented annually to members responsible for two or more new members joining the Society. The name of the sponsor must appear on the new member's application form when received.

ADDED INCENTIVE

Members who are responsible for recruiting five or more members each year will be credited with a full year of "PAID UP DUES".

Since members are the 'lifeblood' and controlling factor of any organization - the more we have, the more we can do, hence your cooperation in bringing in new members who are eligible, not only help the Society's program but in turn increase its inherent value in every way to all members. It also gives you a reward which is well worth your effort. Think about it.

NEW MEMBERS

What the Society is all about

A number of years ago, one of our Canadian members wrote to tell us how much he enjoyed the Society. He told us that he thought we should have called the organization . . . "The Get-to-gether Society" as it was the first time a real effort had been made to bring members of the craft together so they could meet and enjoy each other.

We have an exciting heritage which should be recorded for posterity. The history of early day wireless is filled with exciting episodes and experiences which should be preserved. Proper credit given the many brave men and women who were 'faithful to their trust' when emergencies arose. Many of our craft were at the key when the ship they were on took the final plunge . Others were with the Captain - last to leave their ships.

However, while our prime objective is that of history - there is no reason why we can't try to accomplish this mission while at the same time enjoying the personal contacts that have come to make membership in the organization so enjoyable.

The markers on the buoys read 'twilight-years' as we pass them by, cruising down the channel of life. Its time to pause and think. Why not enjoy our old friends and associates to the fullest while we still have time. In some cases, next year will be too late. Remember - many of our officers in chapters are devoting a lot of personal time and effort to make it possible... it is all volunteer and dedicated. Resolve to attend the next meeting. You will get an inner glow of satisfaction and your old friends will revere the opportunity of seeing you again. How about it?

The "Get-to-gether" Society

Welcome....New Members

SOS/COD: Made one SOS under attack
by shell fire by German sub off Trinidad.
We got hit but also got away. Later these
SOS changed to SSSS etc.
Was on North African invasion being at
Oran on "D" Day and Normandy invasion
also on "D" Day (made 17 trips to Utah
and Omaha Beaches). Got hit with dud
torpedo that put hole in bow. Got sunk
off Iceland Oct. 9 1943 and had to swim
for it. Received the various bombing G
boat attacks and sub attacks all of us rcd
during that time.

The Skipper's Log

Glass Arm ? Edition

WILLIAM A. BRENNAN

Ask any 'old timer' who has had one and he'll say it 'ain't' 24-karat nostalgia nor even 14 or 10! He will equate it with mal-de-mer - and who wants that? You take the good with the bad. The cockroaches with the new P-8's. Most ops become afflicted with a glass arm or a glass fist if they have ever handled a fast circuit for a long period of time. No one likes a glass arm - not even their shipmates who might have to relieve them while they wait it out. Why did we name this edition "Glass Arm"? Well it does not qualify for an edition that will 'honor' anyone ... besides, all the statistics did tire the 'hunt and peck' appendages of Ye Ancient Mariner's anatomy so lets drop it there. Okay? It will be the 'one and only' Glass Arm Edition!

Membership Nears 3250 Mark

... and we might add, Still Growing Fast! We now have 3145 regular members plus 97 Technical Associates. During the time this goes to press, we will add another 10 or 15 new members. Thanks to all active members who are the backbone of our recruitment efforts. Thanks to our Net officers and members for spreading the word... to John Elwood who is beating the brush all over the world... to Bill Willmot and many others who have dedicated themselves to our recruitment activities. You are all honored by having a part in building the largest Professional organization of its kind in the world. Its nice to be FIRST... but lets not rest on our laurels. We still have work to do!

Kudos to Elmer & Fred

ELMER H. BURGMAN W6EB ... We welcome this 'old timer' from MM and Airways (TWA) to Santa Rosa. Elmer has volunteered to spend his mornings, three days a week helping with SOWP projects and work. He has taken over handling of "Stop Chest" stores and also has recently catalogued most of the Society's Library of some 700-800 books (index will be furnished members in the near future). Many other jobs he takes in stride. Loyal, dependable knowledgeable ... every Society should have an "Elmer" ... especially if he's like our Elmer.

FRED ROSEBURY is another 'find' for us. He is, we find, a very gifted individual taking the many original rough drafts and letters from our members, editing them and fitting to space requirements of the Journal and other Society publications. Sometimes he adds his own touch, such as pen sketches on Page 2 of Mike Goulart's article. He is very gifted in etching and with drawings. We are happy to have Fred aboard and in the issues to come, I know that you will learn to really appreciate Fred's fine touch, especially in handling the "Letters to the Editor" type news.

Business Meeting Set for June 22 1979

We have decided to join the Golden Gate Chapter this year and couple the Society's Business Meeting this year with the Chapter's Reunion. They will both be held at the same complex (1100 El Camino Real, Millbrae, CA 94030.) The G.G. Chapter meeting will be in the El Rancho Restaurant June 20th 11:30 - 3:30PM. The Business Meeting will be held the following day 10A-4PM in the Penthouse Meeting Room of the El Rancho Inn. The reason we selected mid-week days was because gasoline should be available for those who drive during these days whereas it is becoming difficult on week-ends. The Inn has a Courtesy Airport Transportation Service and is only a few miles from the S. F. Airport. Rooms at the Inn are given a 3-Star rate by AAA. Current rate quoted by Manager Whitney are D-\$33 and T-\$34 plus tax. Singles same as D. Deluxe - add \$4. Toll Free Reservations can be made outside CA by calling 800-528-1234. Be sure to tell them you are with the Wireless Pioneer group. You might note copy of their add at right which appears in AAA Tour Guide.

Details for the Golden Gate Chapter meeting are available from Director Fred Mangelsdorf., 44 Temelec Circle, Sonoma, CA 95476. T: 707/996-1829. Resv. necessary by June 16th The Society will also need to know the number of members who plan to attend the Business meeting to provide arrangements for necessary space.

FINANCIAL STATEMENT - JAN. 1 1979 SOWP

The Financial Statement of the Society prepared by Treasurer, Lorin G. De Merritt is now available to any interested member. If you wish a copy, send a stamped, return addressed envelope to him at the following address: 410 Grundel Drive, Sebastopol, CA 95472. Please include your Society Serial Number.

Coming Publications - Directory, Etc.

We hope to have the Directory ready for mailing in 6 to 8 weeks and copies will be mailed to all members who have paid their 1979 dues. It is important that you keep your copy of this (Glass Arm) Edition to use in correcting and/or updating listings as necessary, as many members have moved, changed calls, etc. since the Directory/Call Book was typed. While our members, as a group, are quite stable - there is always a degree of flux with 3000 (+) individuals who make up the Society. It is impossible to issue a Directory and have it 100 percent accurate on date printed. The failure of members to report changes at the time they move etc. is the primary cause of incorrect listings.

JOURNAL - NEXT ISSUE

As mentioned in the last Journal, we plan to publish more 'member material' in coming issues, especially articles relating to 'Experiences and Episodes'. We are happy to report, Member Al Woody has furnished us with a copy of his complete 'scrapbook' of early day equipment, etc. We plan to include portions of it in each issue and perhaps in time run most of the material in this wonderful book which is literally worth its weight in 24-K gold.

ELECTION OF OFFICERS

The Election Committee will send ballots to all SOWP members in early June. This will provide members an opportunity to vote for all officers of the (National) Society. Results of the election, as recorded and counted by the vote teller will be announced at the Business Meeting on June 21 1979.

Members are welcome to suggest candidates for the various offices of the Society to the Election Committee for consideration and/or inclusion on the ballot. We do need dedicated individuals to 'carry on' in the various offices of the Society. Make sure that anyone suggested would be willing to assume duties of the office for which sponsored and willing to spend required time to handle all work necessary, with credit to the Society Address: Chairman, Election Committee, SOWP, PO Box 530, Santa Rosa, CA 95402.

CHARLES W. "Bill" LARSEN (1900 - 1979)

I regret to report I have just received word as we go to press of the passing of a close friend of 50 years - much spent together in the CAA/FAA. Bill whose call was W6VJ became a silent key 4-27-79. Known, loved and respected by hundreds of friends over the US. My final salute to you ... good friend. -- 30 --

U.S.C.G. CUTTER BEAR

and we two soon were far ahead of the others and were greatly relieved when we picked up the village of Opiktilik—at least the deer led us there, for it was beyond us to find the way in the blinding snow. It was now blowing so hard that we could scarcely stand. In an hour the others came along. They had been compelled to pick their way on foot, one of the natives going ahead on his hands and knees. It was hard to think of losing the day, for we had made only 5 miles, but it was impossible to go on in that wind, so we crowded into an already overfilled native hut and tried to wait patiently for the storm to let up."

On December 13 the party reached St. Michael trading station and refitted for the final drive to Point Barrow. Lt. Bertholf separated from the main party and took a shortcut across Seward Peninsula with flour and dry provisions while the remainder of the party continued to Cape Rodney to collect reindeer. At Cape Rodney, Jarvis was able to purchase 133 animals from local herdsmen. The local missionary W. J.

Loop donated the mission's 292 reindeer and his services in helping to deliver the animals to the stranded vessels.

The herd was driven across Kotzebue Sound, where the herd was attacked by wolves and polar bears. The going was further slowed by a series of violent storms. Lt. Bertholf rendezvoused with the main party near Cape Blossom. On February 26, 3½ months after setting out, the party sighted the stranded ships.

The half-starved sailors could hardly believe that an overland party had managed to reach them. The crews of the whaling vessels were in poor condition. Lacking proper gear and disciplined leadership the men had degenerated into a disorganized mob. Jarvis quickly took command, organizing the men into work parties. Through his leadership the situation quickly improved. Early in the spring the Bear was able to break the vessels free.

The three men were awarded special gold medals by Congress for "heroic service rendered."

U.S. COAST GUARD TRAINING BARK EAGLE OFF CAPE HENRY

The U.S. Flag frames the Coast Guard Academy's training bark EAGLE as she proudly displays more than 21,000 square feet of sail cutting through the white caps off Cape Henry, Virginia on her annual summer Cadet Practice Cruise training Coast Guard cadets in basic seamanship.

The summer cruises occur every June after graduation exercises at the Academy. Also, included in the squadron are two modern cutters. The cadets are rotated throughout the three vessels enabling them to obtain knowledge of the modern cutters as well as learn the basic seamanship required on the EAGLE. During the summer cruise the EAGLE normally visits several foreign ports allowing the cadets to become familiar with the people of other countries.

Obtained by the Coast Guard in 1946, The EAGLE was built by the German Navy in 1936 as a school ship bearing the name "HORST WESSEL". Equipped with a 740 H.P. auxiliary diesel engine, under power she is capable of obtaining a speed of 10 knots.

During World War II the EAGLE served in the Baltic as a passenger and supply carrier between Prussian ports and Germany proper. In January 1946, officers of the Coast Guard Academy traveled to Bremerhaven and arranged details for obtaining the Bark.

Photographed by Paul W. Bower, PH1. July 24 1966. This photo won first place in Pictorial Class in the annual contest sponsored by the Univ. of Missouri, the Defense Dept. National Press Photographers Association and World Book Encyclopedia Science Service, Inc.

Official U.S. Coast Guard Photograph Rel. No. 6142. From Collection of the Late SOWP Member David L. Brown (647-SGP) Dec. 4-10-72.
